12,000m²

COLOURS
Brazilia Boa Vista
Brazilia Recife
Indiana Baduna
Indiana Pentecosta
Indiana Futuna
Indiana Guinea
Indiana Ofu
Diopside
Caviar

Gerflor products, like all materials used in the 12,000m² Acute Services Building at Sunshine Hospital, came under close scrutiny to ensure they were appropriate and fit for purpose.

"Trust in product and supplier support is absolutely essential to the success of any project and we worked closely with Gerflor and the hospital to ensure the highest standards of product and installation were met." Silver Thomas Hanley Associate, Billy Reizner said.

After 12 years as a Facility Manager in the health care sector, Project Manager Barry Roberts knows there are key considerations when it comes to flooring.

"The most challenging areas for flooring are the clinical spaces because of the need to clean and maintain it. Similarly the waiting areas are very challenging because there's a lot of traffic and a lot of spills and stains."

Gerflor flooring was used throughout these areas.
